Wish you were here!

Explore the future!

Greetings from the

M **O** **O** **N**

The word 'MOON' is rendered in large, bold, stylized letters with a red outline. Each letter contains a different scene: 'M' shows a rocket launch; the first 'O' shows a lunar lander on the moon; the second 'O' shows a futuristic lunar base with greenery; 'N' shows an astronaut in a white suit working on the moon's surface. The letters are set against a dark blue background with a yellow, textured vertical strip on the right side.

"The Land of Cheese!"

Congratulations! Lunar mail is running again. It's been a little isolating up here without it. Considering everything I hope you're well. Kenneth was always fond of first letters and I hope you are as well.

Something tells me you are. . . That's a thing I'm counting on, in fact. Any chance you can send me a copy of "Just So Stories?" Reading has become a favorite pastime during this...ordeal. So long!

Nicole Wargin
